RUNNING 2.0 SERIES

- 52mm. Body Diameter	- Front Shock Absorbers with Spring Seat can use for Standard & Lift Application
- 20mm. Piston Rod	
- 46mm. Diameter Piston	- High Performance Coil-Over shock designed to improve handling and performance by improved overall balance and stability.
- Nitrogen Gas	
- Upside Down/Inverted System	
- Rubber Dust Cover / Mounting Bush Kit	- Enhanced Heat Dissipation

ROCK 2.5 SERIES

- 66mm. Body Diameter	- 16 Steps Adjustable (High/Low Speed)
- 22mm. Piston Rod	- Front shocks with spring seat for both standard and lifted setups
- 60mm. Diameter Piston	
- Nitrogen Gas Pressurized to 200 PSI	- Can setup rebound and compression damping
- Upside Down/Inverted System	- Designed to absorb vibrations when driving
- Rubber Dust Cover / Mounting Bush Kit	- Enhanced Heat Dissipation

ROCK 2.5 SERIES

- 66mm. Body Diameter	- 16 Steps Adjustable (High/Low Speed)
- 22mm. Piston Rod	- Front shocks with spring seat for both standard and lifted setups
- 60mm. Diameter Piston	
- Nitrogen Gas Pressurized to 200 PSI	- Can setup rebound and compression damping
- Upside Down/Inverted System	- Designed to absorb vibrations when driving
- Rubber Dust Cover / Mounting Bush Kit	- Enhanced Heat Dissipation

RIDE 2.5 SERIES

- 66mm. Body Diameter	- 16 Steps Adjustable (High/Low Speed)
- 22mm. Piston Rod	- Piggy-Back design for improved heat dissipation, better performance and durability
- 60mm. Diameter Piston	- Can setup rebound and compression damping
- Nitrogen Gas pressurized to 200 PSI	- Designed to absorb vibrations when driving
- Upside Down/Inverted System	- Enhanced Heat Dissipation
- Rubber Dust Cover / Mounting Bush Kit

ADD A LEAF

Add a lift kit means installing suspension components to raise the vehicle's height for example, adding a 2-inch lift. It improves ground clearance, allows larger tires, and enhances off-road capability and appearance.
